Dear Game store owner or manager,

We are Yeti Militia Games LLC located in Portland Oregon and we believe we have the next big product for 3D terrain for the miniature market.

"Need Tactical Advantage? Get HyGround Tiles" is not just a catch phrase, it's a solution for real tactical miniature gaming.

HyGround is a modular gaming tile system which snaps together to create impressive looking and tactically challenging landscape scenarios for miniature gaming. The detailed tile textures and accessories have been beautifully hand sculpted for the discerning gamer and then integrated with CAD engineering for precision fitting. The gaming industry has provided us many incredibly detailed 3D miniatures, now it's time for an incredibly detailed and versatile 3D game board system for those miniatures.

Win a Free HyGround Display Set for your store! A base set along with specialty tiles and an expansion set totaling more than 230 terrain pieces (nearly 300 hexes)*.

We are providing this Free Display System to the top 20 participating stores. All we're asking is that you share the enclosed Hand-out-cards with your customers and suggest they register on our website. Our registration process requires the user to list their favorite game store and your store is on our list. If you run out of cards, please download and print from our website the HyGround Tiles flyer. www.hygroundtiles.com/downloads/storeflyer1.pdf

More about the product:

- ▶ HyGround gaming tiles will be manufactured using quality injection molding as well as spin casting to create incredible terrain designs which are highly detailed, durable and affordable.
- ▶ Our revolutionary Crown design allows gamers to easily add unique textures to their game board.
- ▶ The Crown also fits flush making the terrain surface usable by most skirmish games. Use it for Hex based movement or area movement skirmish games.
- ▶ Don't replace already acquired terrain systems, bridge to it with HyGround Tiles.
- ▶ Current designs are for 28mm miniatures.

Our products will be available to specialty games stores and resellers at wholesale prices. For more information visit our website at www.hygroundtiles.com.

Support us on Kickstarter starting 8/11/2014!

Thank you,

Bill Reaser
Yeti Militia Games LLC – makers of HyGround Tiles

* Our free HyGround Display Set is dependent on our successful funding on Kickstarter. The set will include the most popular selections from the Kickstarter campaign.
